

# FOAMGLAS® Slabs

## FOAMGLAS® T4+

Thickness in mm (other thicknesses available upon request)	Dimensions in mm	Density in kg/m <sup>3</sup>	Thermal conductivity $\lambda_D$ (EN ISO 10456) in W/mK	Resistance to compression (average) in N/mm <sup>2</sup>
40 - 180***	600x450	~115	0,041	0,6

### Application areas:

FOAMGLAS® COMPACT ROOF, Floor insulation, Wall insulation, soffits, ventilated facades

## FOAMGLAS® T4

Thickness in mm (other thicknesses available upon request)	Dimensions in mm	Density in kg/m <sup>3</sup>	Thermal conductivity $\lambda_D$ (EN ISO 10456) in W/mK	Resistance to compression (average) in N/mm <sup>2</sup>
40 - 180***	600x450	~120	0,042	0,7

### Application areas:

Increased thermal performance for all types of roof construction as well as for walls and floors in a variety of applications.
